

Capabilities

Materials:

aluminum
carbon steel
alloy steel
bronze
brass
stainless
plastic
castings
weldments

CNC Turning:

- up to 1000 pcs
- tolerance +/- .001"
- up to 10" diameter
- up to 18" length

Manual turning:

- up to 42" diameter
- up to 120" length
- tolerance +/- .001"
- low quantity

CNC Milling:

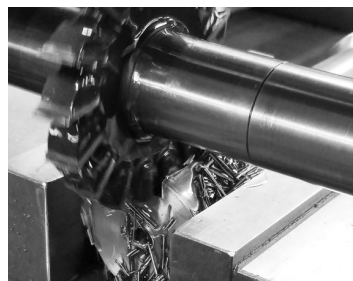

- small to mid size pcs up to 1000pcs
- tolerance +/- .001"
- work envelope of 52" x 30"

Manual milling:

- work envelope of 60" x 120"
- tolerance +/- .001"
- low quantity

We have a 55+ year history of doing jobs that other people say can't be done. We perform boring, turning and milling operations on a wide variety of materials from aluminum and steel to plastic and castings. Our mix of CNC and manual equipment allows us to remain nimble and respond to our client's challenges quickly. As a traditional job shop, we specialize in high mix low volume machining projects.

As a 3rd generation, woman owned company with a DOL certified apprenticeship program, **we take pride in the fact that many customers have entrusted us with their machining for over 50 years.**
