

# Capabilities

## Materials

- aluminum
- carbon steel
- alloy steel
- bronze
- brass
- stainless steel
- plastics
- castings
- weldments

## CNC Mill/Turn

- Up to 1000 pieces
- Tolerance  $\pm .001$ "
- Up to 13.75" Diameter
- Up to 32.5" long
- Bar feeder

## CNC Turning

- Up to 1000 pieces
- Tolerance  $\pm .001$ "
- Up to 10" Diameter

**ISO 9001:2015**

## CNC Milling

- Small to midsize pieces, up to 1000 pieces
- Tolerance  $\pm .001$ "
- Work envelope of 52" x 30"

## Large CNC Turning

- Low quantity
- Tolerance  $\pm .001$ "
- Up to 30" diameter
- Up to 120" long

## Manual Milling

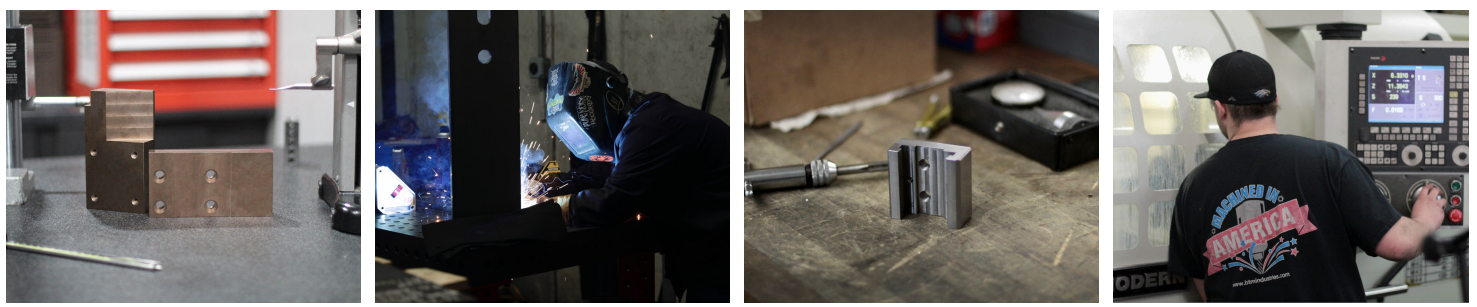

- Low quantity
- Tolerance  $\pm .001$ "
- Work envelope of 60" x 120"

## Light Industrial Metal Fabrication & Assembly

- Low quantity
- Tolerance  $\pm 1/64$ "
- MIG & TIG welding
- Variety of Sizes
- Pressfit

We have a 60+ year history of doing jobs that other people say can't be done. We perform boring, turning and milling operations on a wide variety of materials from aluminum and steel to plastic and castings. Our mix of CNC and manual equipment allows us to remain nimble and respond to our client's challenges quickly. As a traditional job shop, we specialize in high mix low volume machining projects.

As a 3rd generation, woman owned company with a DOL certified apprenticeship program, **we take pride in the fact that many customers have entrusted us with their machining for over 60 years.**
